

Building Solid Foundation, Increasing Performance Levels.

## Overview

Integra is a powerful, user friendly School Management system that quickly and efficiently manages administrative and record keeping task throughout your school.

Globus Infocom offers a set of solutions for helping institutions ensure high performance and accuracy through its continuous software development. Integra gives you an unparalleled advantage of leading-technology and time-tested reliability.

The Integra suite comes with high quality educational content so that your school has competitive edge by providing latest online content to your students.

Teachers can now plan, share and edit their own lesson plans while keeping a track of each individual's performance in the class. Integra enables them to communicate effectively and efficiently with the parents regarding their child's performance.

**A recent study indicates that School Management System can help in overall development of the students and the school to a great extent. Some of the outcomes of this study are:**

**Improved school administration.**

**Enhanced Teacher-Parent communication.**

**Student scores can get better and missed assignments/ homework rates can drop.**

Developed for educators by Globus Infocom, Integra is the best software in the market in its category.

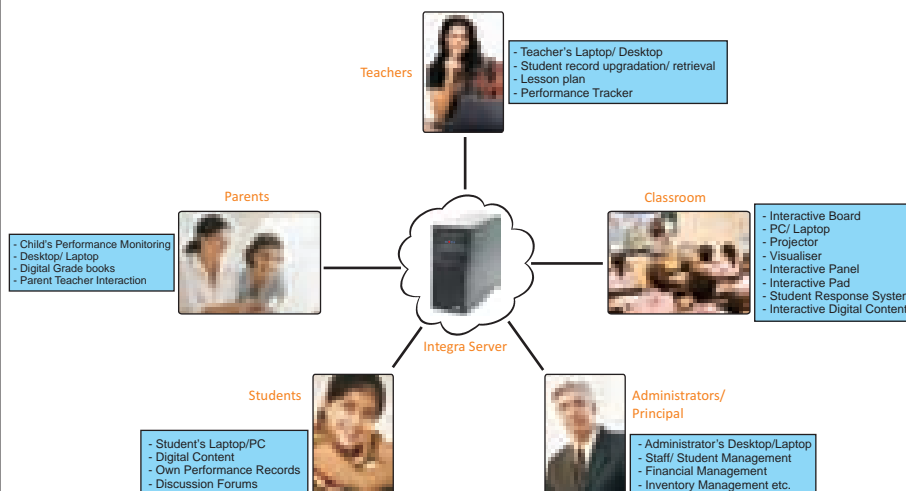

Since Integra is a completely integrated system, the flow of data is continuous between all modules. It means that the staff needs to enter the student information only once and the entered information flows seamlessly to all the other related applications and users.

Integra Suite works with your current systems and leverages existing technology. The educational content is readily available to the students and the teachers, thus giving them the benefit of having the lessons at their fingertips.

Integra comes with an interactive and flexible scheduling function, thus meeting the communication and information needs of the entire school.

With infinite number of features available, Integra is more than just a technology solution. It is a complete solution with the power to revolutionize the working and functioning of Indian Schools.
